B. Submitting Comments

Please include Docket ID **NRC-2019-0109** in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Pre-application Interactions with Prospective Part 52 Applicants for Nuclear Power Plant Licenses.

2. *OMB approval No.:* An OMB control number has not yet been assigned to this proposed information collection.

3. *Type of submission:* New.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* On occasion.
Information is submitted only when combined license application is anticipated.

6. *Who will be required or asked to respond:* Applicants for combined licenses for nuclear power plants have the option of submitting information.

7. *The estimated number of annual responses:* 2.

8. *The estimated number of annual respondents:* 2.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 50,000 hours (45,000 hours reporting + 5,000 hours recordkeeping).

10. *Abstract:* Regulatory Guide 1.206 provides guidance for applicants for combined licenses for nuclear power plants. Section C.2.1 of Regulatory Guide 1.206 deals with pre-application activities for respondents who intend to submit applications for combined licenses for nuclear power plants. Pre-application activities encompass all the communications, correspondence, meetings, document submittals/reviews, and other interactions that occur between the NRC staff and a prospective applicant before the

tendering of an application under part 52 of title 10 of the *Code of Federal Regulations*. Participation in pre-application activities is voluntary. Potential applicants who engage in pre-application activities benefit from an early NRC staff assessment of the completeness and level of detail of the information that the applicant proposes to submit and staff identification of potential deficiencies in the application. Pre-application activities are expected to increase the efficiency of the staff's review of those applications once they are submitted.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 3rd day of June 2019.

For the Nuclear Regulatory Commission.

David C. Cullison,
NRC Clearance Officer,
Office of the Chief Information Officer.
